ASSOCIATION FOR MORAL EDUCATION (AME) (1976-2011)

MISSION STATEMENT

The Association for Moral Education (AME) was founded in 1976 to provide an interdisciplinary forum for professionals interested in the moral dimensions of educational theory and practice. The Association is dedicated to fostering communication, cooperation, training, curriculum development, and research in moral theory and educational practice. It supports self-reflective educational practices that value the worth and dignity of each individual as a moral agent in a pluralistic society. The Association emphasises the development of moral understanding in all individuals, and believes that such development requires opportunities for engagement in moral dialogue. Through its programme of conferences and publications, the AME serves as a resource to educators, practitioners, students, and the public in matters related to moral education and development, provides expertise on educational policies and practices, and provides information about moral education to interested parties in the general public. The AME is governed by an Executive Board elected by and drawn from its membership, and the active participation of its members in all activities of the Association is encouraged.
